WHAT IS FPV DRONE?

FPV is a tiny first-person view drone with exceptional *4k cinematic resolution and 60fps video quality*.

It can fly through small spaces such as doors, windows, plants, in and out.

Our new FPV drone service can capture outdoor and indoor spaces in a single shot, leading your audience from location to location and experiencing all the amenities together.

FPV DRONE VIDEO CAN BE USED FOR MULTIPLE PURPOSES:

- INDEPENDENT VIDEO CLIP
- PART OF VIDEO PRODUCTION
- BRANDS OR EVENTS PROMOTION
- MOVIE PRODUCTION

FPV DRONE IN FLIGHT

The FPV drone is perfect for interior,
exterior and commercial spaces.

It is safe to operate near people, as it
has a frame.
